

Insurance Times: Lloyd's names two independent brokers

June 25, 2002, Vol. XXI No. 13

Two independent brokers recently gained direct access to the London-based insurance market - a first for independent U.S. brokers.

The accreditation of the two brokers, International Space Brokers (ISB) and The Hanleigh Group, is part of Lloyd's drive to broaden its worldwide network of brokers; 18 new brokers have been accredited since January this year.

The Hanleigh Group, headquartered in New Jersey, specializes in the sports and entertainment business.

International Space Brokers focuses on space insurance.
